MVL called this AM and asked for the last five years appropriations for the lab account and the number of FTEs (first document). The second document I also sent her is a list of the lost positions since FY09. Blue highlights are the drug lab and they're nothing substantial, two 120 days, Ridley, and Zhi Tan last Fall. Nothing like the rumors of the decimated drug lab staff that have been circulating.

I'll be here Monday until 10:00, available this weekend if you need anything, call the droid or home, 617-288-7232.
